

**DEADLINE**  
for inscriptions:

May 25th 2011  
Maximum  
60 participants  
on a first come first  
served basis

“ 2<sup>nd</sup> International  
**SKULL BASE ENDOSCOPIC  
SURGERY** *course* ”

Find out everything you need to know about  
Skull base endoscopic surgery.

Final program

June 28 – 29, 2011  
Hôpital Lariboisière,  
Paris (France)

“

**D**ear colleagues and friends,

It is our honour and privilege to invite you to attend the 2nd international skull base endoscopy course taking place in Paris on 28-29th June, 2011.

The aim of this live surgery course is to update neurosurgeons and ENT on the advances and most recent achievements in this rapidly growing field.

The course featuring a combination of didactic lectures, case discussions, video-clips and especially live surgery demonstration will highlight different experiences enhancing collaboration within neurosurgeon and ENT to further progress in this fascinating domain.

We look forward to meeting you in Paris where you will not only enjoy the academia at our course but also the full French experience as a city like Paris may offer.

”

Pr Bernard George  
Dr Salvatore Chibbaro

Pr Philippe Herman  
Dr Damien Bresson

## The faculty

**Pr Bernard George**, course Director,  
Chief of Neurosurgery Department.  
Lariboisière University Hospital, Paris, France

# Scientific Program / Tuesday 28th June 2011, full day

8:00 - 8:45

## Participants registration

08:45 - 10:15

## Session one - Chairmen: Prof B. George – Prof P. Herman

### Welcome and Course Presentation

Salvatore Chibbaro, MD

“My own way, idea, conception...”

Amin Kassam, MD

### Approaches to the Sella, Nasal corridors, Mucosal Flaps, skull base reconstruction

Ricardo Carrau, MD

### Endoscopic Pituitary Surgery: State of the art

Fred Gentili, MD

10:15 - 10:30

## Refreshment break

10:30 - 13:00

## Session two - Chairmen: Prof B. George – Prof P. Herman

### Transplanum, and Transcribriform Approaches

Amin Kassam, MD

### Illustration: transcribriform approach for ethmoid carcinoma

Philippe Herman, MD

### Supra sellar lesions: endonasal endoscopic management of craniopharyngiomas

Sébastien Froelich MD

### Craniopharyngioma: endoscopic vs. open approaches

Fred Gentili, MD

### Transpterygoid Approaches

Allan Vescan, MD

### Transclival Approaches

Salvatore Chibbaro, MD.

### Illustration: endoscopic management of chordomas

Damien Bresson, MD

### Odontoid resection, transodontoid Approaches

Stéphane Gaillard MD

### Summary, Questions

Bernard George and all faculty.

13:00 - 14:00

## Lunch break

14:00 - 15:30

## Session three - Chairmen: Prof S. Froelich – Prof G. Gentili

### Introduction

Philippe Herman MD

### Endoscopic Suite: Equipment and Instrumentation

Salvatore Chibbaro MD

## Round table with all faculty

### Hemostasis into and through the nose: How to do it?

### Skull base reconstruction

### What to do? Why? Which patients? How?

### Case presentation and discussion

Participant's presentation of complex cases (Bring up your own case)

15:30 - 15:45

## Refreshment break

15:45 - 17:30

## Session four - Chairmen: Prof B. George – Prof. A. Vescan

### Limits of endoscopic transbasal approaches in the paediatric population.

Federico Di Rocco, MD

### Extended endoscopic endonasal approach for pituitary: technique, indication, tips, pitfall, why, when.

Felice Esposito, MD

### Illustration: management of JNA with intracranial extension.

### A place for open/combined approach?

Philippe Herman, MD

### Quality of Life in Skull Base Surgery

Allan D. Vescan, MD

### The endoscopic diving technique in pituitary and cranial base surgery

Davide Locatelli, MD

### Participants questions

17:30

## Course adjourns

20:30

## Gala dinner

## Scientific Program

Wednesday 29th June 2011, full day

- 9:00 - 13:30 **Live surgery session** - Chairmen: Prof B. George  
Demonstration of 2/3 cases performed by master team
- 13:30 - 14:30 **Lunch break**
- 14:45 **Conclusions, Course remarks, Farewell**  
*Bernard George, Salvatore Chibbaro*

**T**his course is organised by the Neurosurgery and ENT Department, Lariboisière University Hospital Paris (France) under the auspices of ESBS (European Skull Base Society) and the René-Diderot, Paris VII, University.

### Faculty Neurosurgery

Dr. Schahrazed Bouazza (FR)  
Dr. Selma Hamdi (FR)  
Dr. Emmanuel Mandonnet (FR)  
Dr. Orphée Makiese (FR)  
Dr. Mikael Orabi (FR)

### Faculty ENT

Dr. Tam Cloutier (FR)  
Prof. Romain Kania (FR)  
Dr. Nicolas Leclerc (FR)  
Dr. Elisabeth Sauvaget (FR)

## Practical information

### Registration

Physician: € 300

Resident: **Free (max 5 participants)**

### Language

English

### Workshop objective & design

This theoretical and live surgery course will allow the participants (Neurosurgeons and ENT surgeons, fellows and residents) to learn and deeply understand a variety of skull base endoscopic approaches performed by the most, world wide distinguished endo-neurosurgery team. At the end of the course, the participants should have developed optimal understanding of the endoscopic approach of sellar/suprasellar space, clivus and cranio-cervical junction areas with their specific indications, equipment and instrumentation and complication avoidance. Finally participants will get practical tips about hemostasis and skull base reconstruction.

### Venue

The course will take place at the Lariboisière University Hospital situated just near Eurostar Station and the famous Montmartre hill.

**Lariboisière University Hospital**  
2, rue Ambroise Paré - 75010 Paris - France

### Course hotel

**Mercure Paris Terminus Nord**  
12 boulevard de Denain - 75010 Paris - France  
Tel: (+33)1/42802000 - Fax: (+33)1/42806389 - @: H2761@accor.com

### Gala dinner

The faculty warmly invite you to join them for a Gala Dinner .
